02 TOOLKIT

WEB

JavaScript · TypeScript
React · Next.js
HTML · CSS · Tailwind CSS

MOBILE

React Native · Flutter

DATA & WORKFLOW

Node.js · PostgreSQL
Git · Figma

CREATIVE

DaVinci Resolve · CapCut
Photoshop · After Effects
Blender · Unreal Engine

03 PROFILE

ICT student focused on web development, with an interest in game development. I combine thoughtful design with practical coding and enjoy turning ideas into useful digital experiences.

04 EXPERIENCE

Full-Stack Developer Intern — 2026

GGeese Studio

Worked across the frontend and backend, gaining experience in a professional development environment.

05 SELECTED PROJECTS

Confivia

React Native · TypeScript · Colyseus

A multiplayer trivia game that combines quiz knowledge with confidence-based strategic decisions.

BisWow

Next.js · TypeScript · APIs

World of Warcraft build platform that brings game information together and explores real-world API workflows.

Vanderlande — Trend Radar

Flutter · University project

Contributed to an app that visualises complex business data for Vanderlande.

r/place replica

Real-time data · Personal project

Explored real-time requests, account creation and database integration.

06 EDUCATION

Fontys University of Applied Sciences

Bachelor of ICT · Media stream · 2023–present

07 LANGUAGES

Bulgarian · English · Russian
